

Hi!

My name is Adria Bogosian (please call me Ms. Adria!), and I will be leading the mathematics classes for 5th, 6th, 7th, and 8th graders this school year. I am so excited to join the Arrow Academy family. I taught high school mathematics for over ten years right across the road at Whippany Park High School. I left there a few years ago to be home with my boys, and I have been teaching fitness classes and tutoring math since then. I am looking forward to getting back in the classroom. I am aware of what the students need to know at the high school level and am excited to prepare this group of students for higher level mathematics.

My mission has always been to make mathematics relatable, applicable, interesting, and not so overwhelming. I strive to present the material in a fun, enjoyable manner. Our classroom will be a welcoming environment in which we will encourage and support each other and incorporate our faith into our lessons.

I look forward to meeting each of you! Here is a list of supplies you will need for our math class:

1. A 3-ring binder for handouts (it is okay if you have a larger binder for other subjects and use a part of that one for math)
2. Two folders
3. A supply of number 2 pencils
4. A colored pen (any color) for correcting work
5. A highlighter (any color)
6. A calculator is optional (any scientific kind will do)—we won't use them often, but I will demonstrate some work with them on the Smartboard!

I hope you enjoy the rest of your summer, and I look forward to meeting you all in September! Please feel free to email me with any questions or concerns at adria@thearrowacademy.org.

With gratitude,
Adria Bogosian
